The Secretary of the Treasury has not yet given notice of any intention to withdraw this popular boan from Sale at Par, and until after ten day's notice has been given, the undersigned, as Agents for the Sale of the Bonds will continue to supply the public.

The whole amount of the Loan authorized is Five Hundred Millions of Bollars. Nearly Four Hundred Millions have been already subscribed for and paid into the Treasury, mostly within the last seven months. The large demand from abroad, and the rapidly increasing bone demand from abroad from a bone demand from a bone demand from a formation for the formation for t

mand from abroad, and the rapidly increasing from de-mand for use as the basis for circulation by National Hanking Associations, now ergsmaling in all parts of the country, will, in a very short period, absorb the balance. Sales have lately ranged from sea to fifteen millions weekly, frequently exceeding three millions daily, and as it is well known that the corretary of the Treasury has ample and unfailing resources in the Duties and imports and internal Revenues, and in the laters of the Internal and Internal Revenues, and in the issue of the Interest Bearing Legal Tender Treasury Notes, it is almost a cer-tainty that he will not find it necessary, for a long time to come, to seek a market for any other long or perma-nent Loans, the Interest and Principal of which are pay-able in Gold.

able in Gold.

Prudence and self-interest must force the mints of those contemplating the formation of National Banaung Associations, as well as the minds of all who have idle money on their hands, to the prompt conclusion that they should lose no time in subscribing to this Loan. It will soon be beyond their reach and advance to a handsome premium; as was the result with the "Seven Thirty" Loan, when It was all sold and could no longer to subscribed for at

par.
It is a Six per Cent. Loan, the interest and frincipal payable in Coin, thus yielding over Nine per Cent. per annum at the present rate of premium on noin.
